

DIDYMOS baby carriers and baby wrap slings

Thank you for your interest in DIDYMOS - the company for baby carriers and baby wrap slings

With its founder Erika Hoffmann, DIDYMOS started back in 1972 to repopularise babywearing - today it is once again a matter of course for almost all parents with small babies.

Her daughters Tina and Anna Hoffmann are now leading the family business into the next generation with the classic DIDYMOS baby wrap sling and, above all, with new innovative Didy carriers - whether half to tie or completely with buckles - all completely individual and always the right one for everyone.

We pay attention to the highest quality and the following applies to all our baby carriers:

- individually customisable
- grows with the baby from birth
- simply comfortable
- spread-squat position, individually customisable from birth
- sewn from high-quality DIDYMOS fabrics
- are tested according to CEN/TR 16512 and ASTM F2236:16a

On the reverse side we present DIDYMOS slings and the DidySling.

We are happy to provide free information material for parents and are always there as your contact for questions and support.

Contact us at mail@didymos.de or call us on +49 07141 97571-0 - we look forward to hearing from you.
